Front End Software Engineer

I'm Elyas, a passionate Front End Software Engineer with a background in computer science. I bring a unique blend of technical knowledge and creativity to the world of software development. Skilled in front-end development with HTML, CSS, and JavaScript, I specialize in creating dynamic web applications that engage and delight users. My proficiency extends to working with popular frameworks like React, enabling me to craft interactive and intuitive user interfaces. But what sets me apart is my adaptability. I'm not just a software developer; I'm multilingual and a fast learner, always eager to embrace new challenges. I thrive in collaborative environments and actively seek opportunities to contribute my skills and my unwavering passion for software development.

TECHNICAL SKILLS

JavaScript, React, Html, CSS.
